Wholesale Undermount Sink Distribution

As the Midwest’s leading undermount sink distributor, we take pride in offering high-quality kitchen and bathroom sinks and accessories. We are passionate about providing **expert service and selection**, and include **professional guidance** on all orders. Our reputation has been built on supplying quality products at fair prices to partners in the construction industry.

Sink Source carries an extensive variety of styles and finishes of sinks, including **304-series stainless steel sinks**, **luxurious granite composite sinks**, and **gorgeous porcelain vanity bowls**. All of our products are UPC and cUPC designated, and come with a limited lifetime warranty.

Our **two new sink collections** offer innovative and contemporary options to compliment any kitchen or space.

- **Neró Near Zero Radius Collection** – These rectangular stainless steel basins have straight side panels brought together by precisely angled, tight corner degrees that create simple, straight lines.
- **Granitis Granite Composite Collection** – This German-made material is engineered for superior quality by using a mixture of ground granite stone and acrylic resin under high pressure. The resulting surface is nonporous, naturally hygienic, and resistant to heat, stains, scratches, and chips.

The Uniform Plumbing Code™ (UPC™) and Canadian Uniform Plumbing Code™ (cUPC™) are designated as the American and Canadian national standards, respectively. These codes are designed to provide consumers with safe and sanitary plumbing systems. All Sink Source products meet or exceed these standards.

Neró

NEAR ZERO RADIUS SINKS

Striking Neró near zero radius sinks will add a clean and stylish feel to any kitchen. These rectangular stainless steel basins have straight side panels brought together by precisely angled, tight corner degrees that create simple, straight lines. This contemporary collection of sinks complements modern decor and gives stainless steel a sophisticated look.

STAINLESS STEEL SINKS

All of our stainless steel sinks are manufactured with 304-series stainless steel, a proven industry-standard material: non-porous, hygienic, food-safe, rust-free, extremely durable, and easy to clean. 304-series stainless steel has a 18:10 chromium to nickel ratio, where chromium provides shine and durability, and nickel supplies hardness and strength.

VSS-4040 Stainless Steel, Double Bowl, 40/40	
OUTSIDE DIMENSION	29 1/8" x 18 1/2" x 8"

GAUGE	16G or 18G
FINISH	Stainless Steel

Satin brush finishing conceals small scratches from everyday use, and undercoating and sound-deadening pads reduce both noise as well as condensation buildup on the underside of the sink. We carry a vast variety of sizes and configurations that are available in 18- and 16-gauge thickness.

Grids, strainer baskets, and accessories are available for most stainless steel sinks.

VSS-5050 and VSS-5050-ADA Stainless Steel, Double Bowl, 50/50

GRANITE COMPOSITE SINKS

Granitis granite composite sinks will make a bold statement in any kitchen. This German-made material is engineered for superior quality by using a mixture of ground granite stone and acrylic resin under high pressure. The resulting surface is nonporous, naturally hygienic, and resistant to heat, stains, scratches, and chips. Available in five colors, these virtually indestructible sinks are a beautifully durable addition to any kitchen workspace.

CARE AND MAINTENANCE

Follow our general care and maintenance instructions everyday to get the most out of your sink.

Stainless Steel

- 1) Wet the sink with water, removing all food. 2) Sprinkle the sink with baking soda. 3) Scrub in the direction of the steel grain with a scrubbing pad. Use a toothbrush around fixtures and tight spaces. Rinse thoroughly.
- 4) Buff sink dry with a few drops of olive oil and a lint-free cloth until sparkling. 5) Keep sink dry in between use to avoid water spot and calcium buildup.

Granítis Granite Composite

CAUTION: Do not use Comet and other harsh chemicals. Do not use sandpaper. These will damage the finish of granite composite sinks.

- 1) Gently scrub with mild dish soap, a non-abrasive sponge, and warm water. Rinse thoroughly. 2) Buff sink dry with a few drops of olive oil and a lint-free cloth. 3) Keep sink dry in between use to avoid water spot and calcium buildup.

Porcelain

Gently scrub with liquid soap, a non-abrasive sponge, and warm water. Rinse thoroughly.

Visit sinksource.com for full instructions on removing deeper stains and stubborn spots on all sink types.
